Standards & Labelling Training Programme

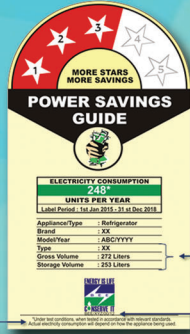

The Objectives of Standards & Labeling Program is to provide the consumer an informed choice about the energy saving and thereby the cost saving potential of the marketed household and other equipment.

More Stars More Savings
When comparing similar sized products look for stars and save money

Efficiency Parameter
Lower Electricity Consumption means higher savings. Sometimes efficiency is written (e.g. AC), where higher is better.

Applicable Conditions
Applicable standard & test conditions for the appliance type

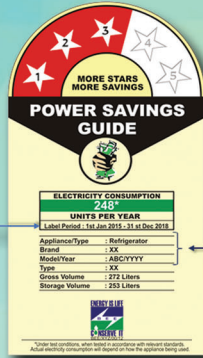

Technical Details
Technical parameters with respect to the appliance type

Unique Code

Label Period
Label Period is period for which standard is applicable. Standard are revised with time.

Brand & Model
Type of Appliance
* Brand
* Model
* Year of manufacturing
