

NATIONAL INSTITUTE OF TECHNOLOGY Andhra Pradesh

STARTUP 2.0 EXPO 2024

NIT ANDHRA PRADESH

DATE : 4 NOVEMBER, 2023

The event is a student startup showcase, aimed at providing students with an opportunity to learn. This will feature student startups from our institute as well as other nearby colleges. The main motto of this event is to educate students about entrepreneurship and innovation by providing an environment to speak out their experiences.

DEADLINE

1 NOVEMBER, 2023

What is the start-up expo at NIT-AP?

Start-up expo is the event done during vulcanzy-2023 aiming to showcase student start up products and prototypes by the students who aspire to have a start up in the near future.

Who can participate?

Any student who have a prototype or product ready can participate. If the idea is service based, they have to show their app or service.

What is the benefit for start up aspirants?

Even start up aspirants can show their products or prototypes and also get the inspiration to have a startup.

What is the benefits for Founders & Co-Founders of start up?

They can advertise their product/ service as around 8000 students will be visiting the campus during the techno -cultural fest (Vulcanzy) of NIT AP. So, it will attract the audience towards their start up.

Will accommodation be given?

Accommodation will be provided on pre request basis for nominal charges.

How many members can be there in a team for the start up expo?

Team can consist of maximum 3 members only.

Is there any registration fee to be paid for the expo?

There is no registration fee.

Can we bring poster for the display?

Yes you can bring posters for the display to show your idea, but prototype or product is must along with the poster.

How to register?

Press the registration link in the 1st page and register with the details asked. Then you will be contacted regarding further procedures.

HIGHLIGHTS FROM PAST YEAR

STARTUP EXPO 2.0 is a second version of student startup and innovative products showcase, aimed at providing college students with an opportunity to learn about the process of starting a business/Startup. The event will feature student startups and innovative products from our college as well as other nearby colleges. The main goal of the event is to educate students about entrepreneurship by displaying banners and having the founders of the startups speak about their experiences. Seeing the success from last year's expo with over 2500 visitors, 36 startups and innovative products (120 Participants from Various colleges) and got featured on E TV Yuva Program.
